Your LED Solution for DC Lighting

Introducing a beautiful white LED light for 12, 24, and 48 volt DC applications. 3.5" diameter anodized aluminum with frosted acrylic diffuser looks great in home and industrial applications alike. Perfect for under counter lighting, but also great for task and room lighting.

Integrated high efficiency driver with soft start and dimming capability. Pluggable power connectors allow for quick and easy wiring of multiple units. Output is approximately equal to a 30 watt incandescent bulb.

Introductory price of \$80 each or 5 for \$300. Dealer inquiries welcome!

Specifications
